

The Going To Disneyland Game

These accessories go with the game on page 198 of the "Going To Disneyland" book!

NUMBER CARDS Print out and trim along the blue border to get 6 number cards. Fold each card in half to hide what is printed on it so you don't know which one is which when you are playing. Put the cards in a bowl or hat and pick one without looking when it's your turn to go in the game.

GAME PIECES Print out and trim the whole strip of game pieces out by cutting along the 2 dotted red lines. You can fold the game pieces and then cut them out OR cut them out and then fold them. Each piece will have 3 folds. Fold the pieces in half along the center so the printed side is facing out. To make the "feet" of the game piece, fold the two sides back towards the center fold.

NOTE: If you want to streamline your game piece, you can snip off or round out the corners with scissors.
